

Data sheet Product WLPK 3

Accessories for electronic components>Thermal interface material>Thermal conductive paste and thermal interface film
 Ceramic filled, silicone-free thermal conductive paste with high thermal conductivity

Features

composition:	silicone-free, synthetic fluid ceramic filled
basin:	syringe
delivery quantity:	3 ml
consistance:	pastey
colour:	silver
density:	1.4 g/cm³
thermal conductivity:	10 W/m·K
temperature range:	-60°C ... +150°C
dielectric strength:	not applicable, because conducting
solubility in water:	insoluble
