

PANNELLI**Documentazione tecnica generale****Materiale:** Autoestinguente UL94V0**Colore:** Grigio, trasparente, rosso trasparente**CARATTERISTICHE**

Un'ampia scelta di pannelli permette al Cliente di definire la configurazione più adatta alle sue esigenze. Tra i pannelli con ganci classifichiamo quelli grigi, quelli trasparenti e quelli di colore rosso trasparente. Tutti questi pannelli (tranne che per il contenitore 1M) vengono forniti con la doppia possibilità: con cornice (appositamente studiati per l'utilizzo di etichette) e senza cornice (appositamente studiati per la serigrafia piana). Per la serie H68 troviamo i pannelli senza ganci grigi, quelli trasparenti e quelli di colore rosso trasparente. Sono infine disponibili per la serie H68 la serie di pannelli trasparenti con cerniera.

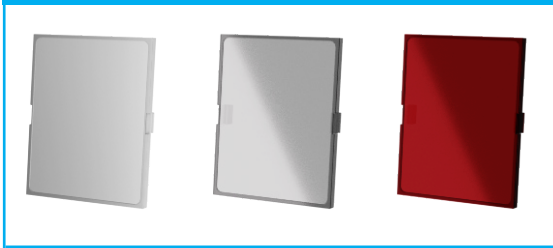

1M Serie/Series**PANELS****General technical documentation****Material:** Self-extinguishing UL94V0**Colour:** Grey, trasparente, transparent red**FEATURES**

A wide range of panels is available so that Customers can obtain the most suitable configuration. Panels with hooks are available in grey, clear transparent or red transparent. All these panels (except those for use with the 1M enclosure) are available in two options: with a frame (suitable for use with adhesive labels) or without a frame (suitable for use with flat silk-screen printing). A range of panels without hooks is available for the H68 series, in grey, clear transparent or red transparent. Clear transparent hinged panels are available for the H68 series.
